Senzer (Atlant Groep)
At Atlant Groep I had my first steps in the world of SharePoint. I worked as on support engineer and next to that I did my first SharePoint projects:
- Digitalization and automation of the paperwork of the support desk (like lease contracts and bills) and inventory.
- Configuring a CRM site collection with data connection to Microsoft Dynamics NAV (Navision)
- Machine registration system: Registration of machines and tools. Planning of repairs and maintenance.
- Configuration en development of narrowcasting system
